

Things needed for the site

✓ **Site Requirements & Next Steps**

1. **User Permissions**

- Implement permission settings for viewing messages and photos in the chat system.

2. **10DLC Compliance**

- Add chat usage terms in the **Terms and Conditions** to meet **10DLC SMS verification** requirements.

3. **Hero Section**

- Add a video background for the **hero section** of the landing page.

4. **Door Animation**

- Include an animation effect for **doors opening** (e.g., as an intro or section transition).

5. **Twilio SMS**

- Purchase a **Twilio service plan** for handling **SMS messaging**.

6. **Temporary File Storage**

- Set up **Cloudinary** and share the following with me:
 - Cloud Name
 - API KeySo I can integrate temporary media storage for now.
-
